

CRL RESTORATION

PROFESSIONAL HERITAGE REFURBISHMENT

- condition surveys & investigations ■
- façade cleaning & restoration ■
- stone, brick & faience restoration ■
- steel frame cathodic protection ■
- window repairs & replacement ■
- roofing repairs & replacement ■

CRL RESTORATION specialise in the restoration, conservation, refurbishment, strengthening and cathodic protection of historic, period and modern buildings and structures.

Our extensive expertise and experience in the design and installation of cathodic protection systems to steel framed buildings to combat Regent Street disease have enabled numerous Clients to save substantial costs by significantly reducing the amount of stonework and masonry replacement required.

CRL have carried out more of these cathodic protection schemes than any other contractor and were the first in the UK to carry out a commercial contract using this method of steel frame corrosion control to buildings.

CRL Restoration have the experience and capacity to undertake projects throughout the UK, either as the Principal Contractor, or as a Specialist Contractor, with values ranging from £5k to £5 million.

- Condition Surveys & Investigations
- Feasibility studies & trial repairs
- Technical & cost advice
- Façade Cleaning (Doff, Torc, nebulous, chemical & poultice)

- Wall tie installation
- Cold-cast & stone units to match existing
- Steel frame Cathodic Protection
- Coatings & Corrosion inhibitors
- Window repairs & replacement
- All associated metal & lead works
- Roofing works (slate, asphalt & liquid coatings)

STRUCTURAL MAINTENANCE is an important part of heritage building refurbishment. Our in-house skilled operatives undertake masonry, brickwork and concrete repairs compliant with European Standards,

as well as the installation of wall ties to stabilize masonry or cladding. This work is often undertaken in conjunction with the application of protective coatings, door and

CRL RESTORATION IS THAT SPECIALIST COMPANY

window replacement or repair, roofing works, and all other aspects of building restoration and associated services that may be required. These activities add not only aesthetic quality, but will also significantly prolong the life of the building. CRL Restoration work closely with our Clients to offer technical and budgetary advice to ensure that their objectives are met at all stages of the project.

WHAT DOES CRL RESTORATION OFFER?

CRL RESTORATION offer a one stop shop for all your requirements in caring for your heritage building and structures. We have a Specialist UKAS Accredited Survey Division that can undertake detailed condition surveys and investigations, produce fully documented reports identifying any existing problems and offer assessments and recommendations on how the building should be restored, including Schedules of Defects and budget figures.

CRL Restoration utilise in-house teams to undertake the works in accordance with the specification and recommendations. CRL are committed to working collaboratively with all the parties involved to value engineer the works, thereby coming up with the right solutions and making sure that the Clients expectations are met and the final works are as anticipated. CRL has extensive experience of working on listed buildings with all Heritage and Conservation Bodies, as well as Local Authorities.

Each project is allocated a dedicated and experienced Management Team to ensure the smooth running of the project, assisted by our Health, Safety, Environmental and Quality Team.

60 YEARS

OF CARING FOR THE UK'S

HERITAGE

BUILDING CONSERVATION and refurbishment can in many ways be more involved than new construction. The unique difficulties associated with working in and around office blocks, churches,

schools and other premises (often occupied), calls for a fresh and innovative approach from an experienced specialist company. Our aim within CRL Restoration is to restore our Clients

INDUSTRY LEADING EXPERTS

and the nations' heritage buildings utilising all the combined experience of our directly employed Managers and skilled operatives and our reliable supply chain.

CRL aim to constantly exceed our Clients expectations by completing all projects on time, within budget and to our Clients satisfaction.
